I'm not even in the process of learning; I'm just a hobbyist. I'm not great at everything, but I'm not bad at anything. You won't find me here talking about how perfect my oil painting is, or how great my fantasy art is. I want to go from paint to canvas, sometimes step by step, sometimes not. I'm still figuring out what I like, what I don't like, how to do certain things better, and how to be more selective with my choices. I'm sure I'll take a wrong turn or two along the way, but I'm willing to take the risks and experience the failures. I'm just a guy who loves to paint. However, I also love to teach, so I'd love to share some of my experience with you so that you can learn something and improve. MCPE pvp treasure warsHighlightsversion1.8.0 hive v5.7.
